

# Biological Food Production

*A new direction in growing food with integrity*

Saturday 17 March 2018 8am – 3pm

‘Mangiri’ 444 Northanger Rd Mongarlowe, NSW

\$150 includes catering

**EARLY BIRD PRICE OF \$120 UNTIL MARCH 1st**

***“The secret to sustainable farming is to create and maintain a biologically active, living soil with balanced, abundant & diverse population of microbes; & high quality structured water”***

Learn to grow **ABUNDANT NUTRIENT DENSE FOOD** naturally in your Home Garden or Commercial Farming Enterprise using the latest innovative developments in organic land and plant care.

In this inspiring workshop, **Robert Gourlay, Managing Director and Co-Founder of Phi'on - Elements of Life**, unfolds the secret life of soil and plants.

Rob will demonstrate his innovative and patented *Living Water* technology; divulge the essentials behind successful food production from backyard plots to commercial ventures; and impart fundamental elements to improving human and environmental health from the ground up.

## **YOU WILL LEARN HOW TO:**

- Improve soil quality
- Decrease growing period to plant maturity
- Increase plant resilience to temperature variation
- Increase plant yield & nutrient uptake by up to 4 fold
- Significantly decrease insect attack, plant diseases and fungal attack
- Use Biological formulations for water conditioning and odour control
- Grow nutritious chemical free produce on any scale.

**PLUS**, get to see our unique biological formulation production processes first hand, and examine a small scale working farm production facility.

## **Workshop Facilitator:**

This workshop is designed and presented by **Robert Gourlay**. Robert is an environmental scientist who draws on his extensive experience since 1979 in alternative health measures. This includes growing nutrient dense food, developing and producing probiotics for humans and animals and developing health supporting techniques and formulations for soil, plants, air and water.

## **Workshop Notes:**

To save paper, the notes from this workshop will be provided electronically in a full PDF presentation to all participants.

## **Catering for the day is included:**

As well as a whole day of inspiring learning, we provide a nutritious lunch, morning tea and refreshments with as much of the food as possible prepared from home grown produce.
